Lhei Abigail Barbas

Francine Chantelle Diafante

Liahona Haley Javelona

Ayesha Sase

MESSAGE OF HOPE

The Pandemic became the boundary for our communication, health, and dreams. It became the hindrance that prevents us from meeting with our family, friends, and loved ones. However, challenges are made to make us stronger, therefore, we have no reasons to give up. We have coped with what we have and have discovered in our very own ways. We know that God won't give us hardships that He knows we cannot handle.

We all face desperate and difficult times, and during these times we are hurting. It is inevitable, but it doesn't mean that things will stay that way forever. It's tough, it will always be, but our hope must not wither. Instead, always remember that there will be better days. That at the end of this cold, seemingly hopeless winter, the embracing warmth of spring will come. So, let us live for the hope that tomorrow will be better. It is a bad day, not a bad life.

Despite all these difficulties, we still managed to learn how to survive. Hope and faith in God became our source of strength in facing our own challenges. It became our light and spark in the darkest time of our lives. As many people say, life goes on despite all the difficulties we are facing. But in order to keep going, we need to have hope to give us the strength and perseverance to go on.

MESSAGE OF HOPE

Having hope will help us in life and that is why it is important not to lose it because it is what keeps us going. It is what strives us to live and to go on because it somewhat makes our life better in some way. Not only does it help us in tough times, but it also allows us to feel a sense of aspiration and happiness. A little bit of happiness knowing that there is a chance of something good happening. That there's light at the end of every tunnel. There's a rainbow at the end of the storm and that there's hope at every bad situation. We just need to find it, cling on to it and make it our motivation on moving forward.

To find hope means to not give up on ourselves, our family, and in life. Let's continue to live despite all the problems, difficulties, and obstacles that hinder us to smile. So, let's hope for better days to come because we never know what the future may bring into our life. To whoever who's watching this, let's find that "Hope" in our life.

RELEVANCE OF YOUR DESIGN TO THE THEME

Butterfly is another symbol of hope and is a metaphor for hope. Some tribes in the Native American culture believe that butterflies can take a wish up to the Great Spirit. To wish is to express a strong desire or hope for something that is not easily attainable. The elusive butterfly is often just out of reach. But legend tells that if you capture a butterfly, whisper your wishes and hopes to it, and then release it to the heavens, you will be rewarded. It is believed that your hope and wish will be granted in gratitude for the freedom of the butterfly.
